Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on June 5, 2006 has been entered.

Response to Arguments

Applicant's arguments, see 8, filed April 27, 2006, with respect to the rejection of claims 65-101 have been fully considered and are persuasive. The 35 U.S.C. 102(b) and 103(a) rejections of now pending claims 65-68, 70-77, 79-90, 92-96 and 98-105 has been withdrawn. However, in regards to the Double Patenting Rejections, due to an improper Terminal Disclaimer, see below, the Double Patenting Rejection still stands.

Terminal Disclaimer

The terminal disclaimer filed on April 27, 2006 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of March 3, 2004 has been reviewed and is NOT accepted.

The application/patent being disclaimed has been improperly identified since the number used to identify the co-pending application (10/793,546) being disclaimed is incorrect. The correct number is 10/793,549.

Double Patenting

As to the double patenting rejections enumerated in the previous Office Action, only one Terminal Disclaimer was filed. This terminal disclaimer for U.S. Application 10/704,376 (US Patent Publication 20050102010 A1) is noted and the double patenting rejection in regards to this application has been withdrawn. However, the remainder of the double patenting rejections for U.S. Application numbers: 10/793,549 (US Patent Publication 20050102012 A1), 11/002,609 (US Patent Publication 20050119717 A1), 10/656,722 (US Patent Publication 20040143154 A1) and 11/051,823 still stand rejected for reasons previously stated in the prior Office Action.

Allowable Subject Matter

1. Claims 65-68, 70-77, 79-90, 92-96 and 98-105 are rejected under Double Patenting Rejections as stated above, but would be allowable in the event that a proper Terminal Disclaimer was filed.

The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fails to teach or reasonably suggest a cardiac harness with undulating strands or rows of hinge elements, wherein the first set of undulating strands or rows of hinge elements forming an electrode and a second set of undulating strands or rows of hinge elements have a dielectric coating and are electrically insulated from said electrode, in combination with the other elements in the claims.
